1. The Problem

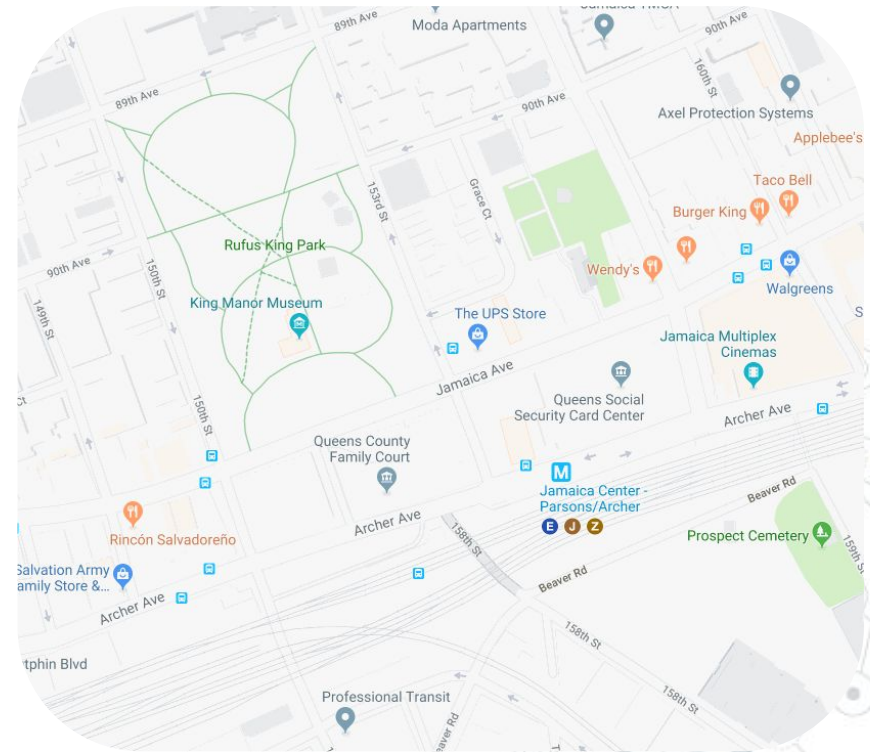

A decorative network diagram at the top of the slide, featuring a series of interconnected nodes and lines. The nodes are represented by circles of varying sizes, some solid and some dashed, connected by thin lines. A central node is highlighted with a larger, dashed circle around it, and a blue double quote symbol is placed inside this circle.

“

We frequently crave a premium travel experience offered by ridesharing apps but we are going broke.

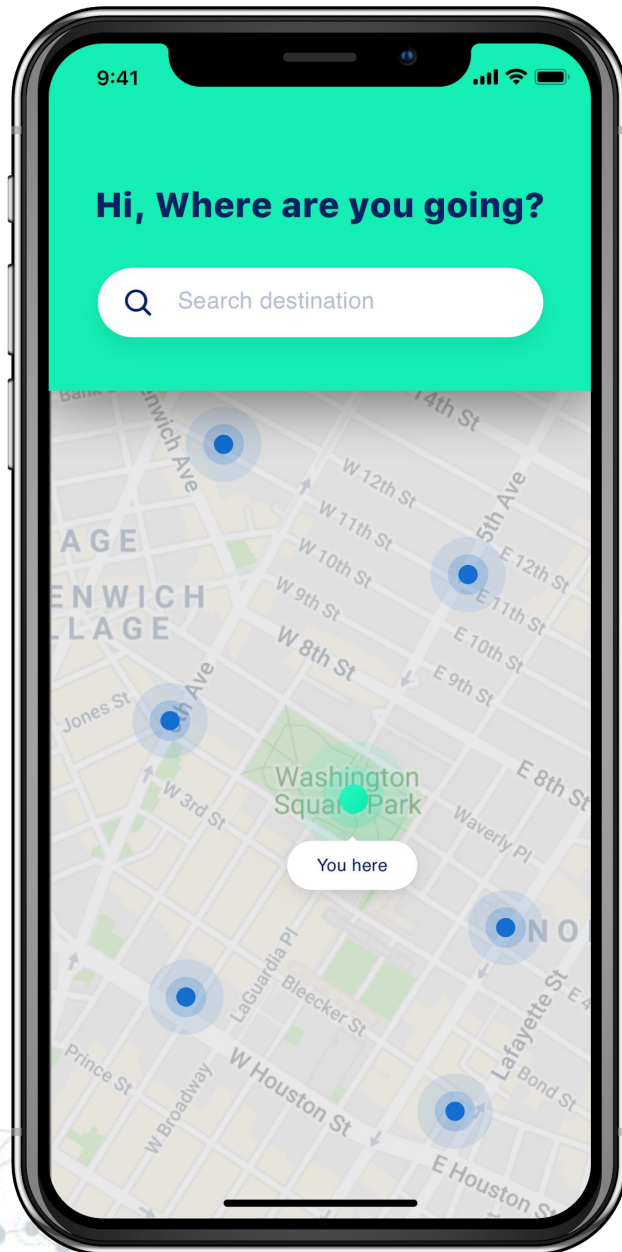

2. The Solution

3. Target

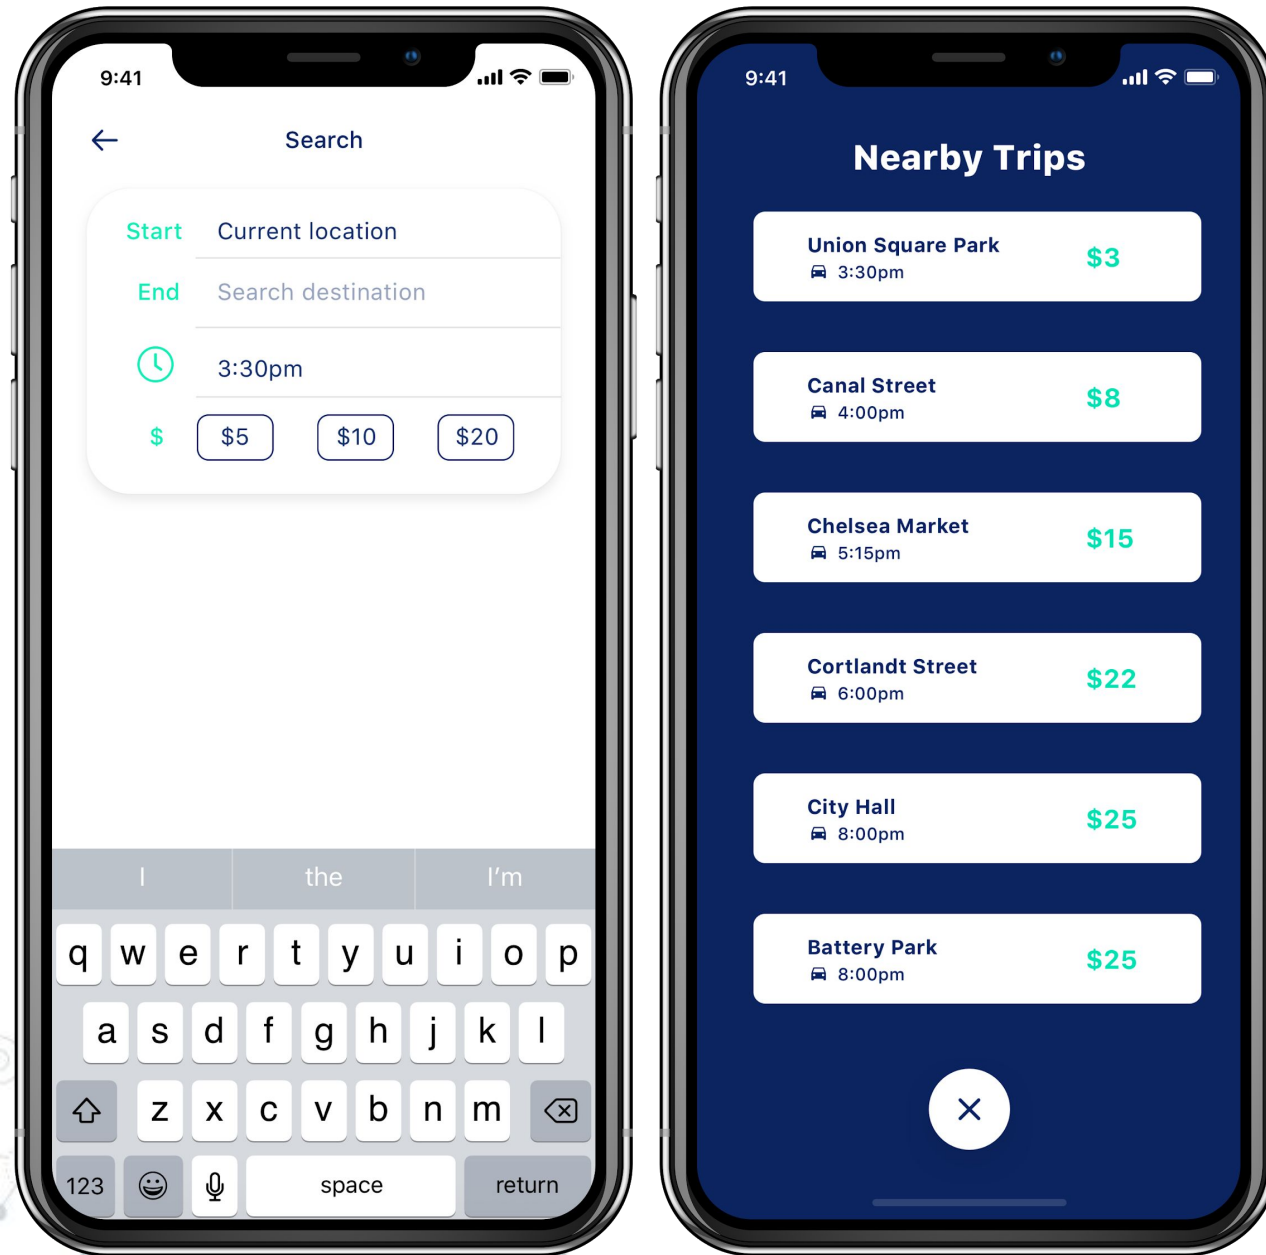

4. User Flow

Home Screen

The user is able to search a destination or find available routes

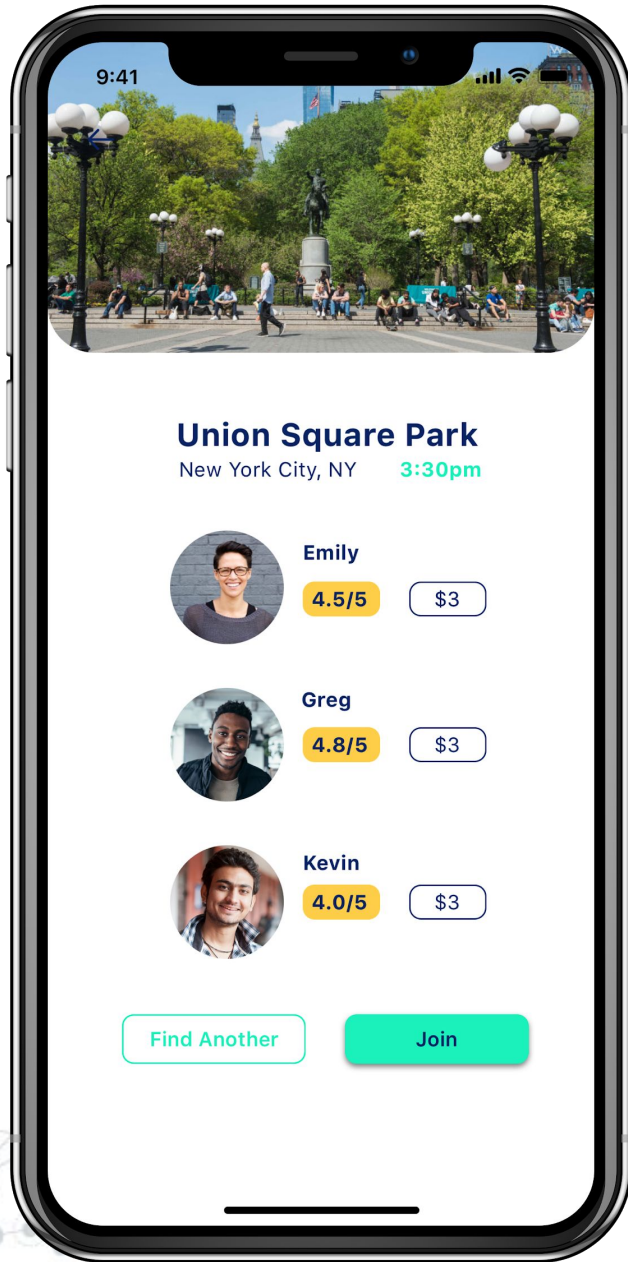

4. User Flow

Search Screen

The user can create a new route or find nearby trips

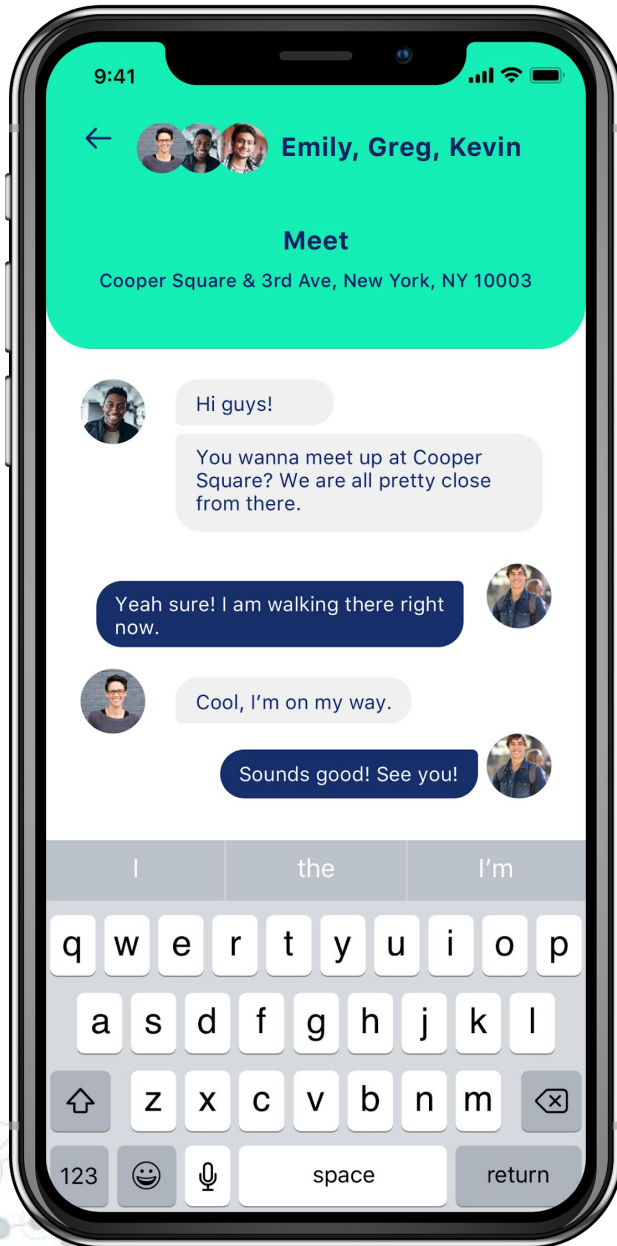

4. User Flow

Select Screen

The user can view a select route for more details

4. User Flow

Messaging Screen

The user can message other riders to communicate meetup times
